The Intended and Unintended Impacts of a Crime-Deterrence Experiment on Academic Outcomes: Evidence from High-Intensity Streetlights

with Amy Ellen Schwartz

In 2016 the New York Police Department randomly assigned high-intensity light towers, each emitting 600,000 lumens, to high-crime public housing developments. The lights reduced crime (Mitre-Becerril et al., 2022), but they also cast light into nearby apartments overnight. We link the experimental data to administrative records of public school students, incident-level crime and arrest data, and building characteristics to estimate effects on academic outcomes. Students in developments assigned a higher lighting dose experienced large reductions in exposure to nighttime and daytime index crime, arrests, and incidents involving underage victims, but achievement did not improve on average. Using building height as a proxy for whether the lights' beams could reach a student's apartment, we find that students in high-rise buildings gained in achievement and attendance, while students in low-rise buildings lost 0.22 standard deviations in math, roughly twice the size of the high-rise gains. The math loss and height contrast is not explained by differential crime gains or schooling, and it is absent among students living just outside the developments. Consistent with sleep disruption, in the same places where math losses are largest, effects emerge earlier for girls than for boys, are accompanied by sharp increases in overweight risk among girls, and are modestly larger for students on noisier streets. Treatment intensity and the built environment jointly determined who gained from reduced crime and who bore the costs of light intrusion.

WORKING PAPERS

Hold Harmless for Whom? The Impact of COVID Era Policies for School Funding, Teachers, and Students. (R&R at *Education Finance and Policy*)

with Michah W. Rothbart and Amy Ellen Schwartz

How a Good School in the Neighborhood Affects Academic Outcomes, with Sarah Cordes, Jeehee Han, and Amy Ellen Schwartz

WORKS IN PROGRESS

The Impact of a Crime Deterrence Intervention on Political Behavior, with Ying Shi

Housing Market Responses to Salient Police Interventions: Experimental Evidence from High-Intensity Streetlights, with Alexander Cardazzi

The Long-Term Impacts of Neighborhood Violence on Youth Outcomes, with Amy Ellen Schwartz

PRE-DOCTORAL RESEARCH

The Effect of Public Transit Expansions on Crime: Evidence from Mexico City

RESEARCH AND PROFESSIONAL EXPERIENCE

Graduate Research Associate, Center for Policy Research 2022 –
Professors Michah W. Rothbart and Amy Ellen Schwartz, Syracuse University

Research Assistant, Center for Competitiveness Studies 2019 – 2022
Professor Guillermo Abdel Musik, ITAM

Investment Consultant, Profuturo Pensiones 2018 – 2019
Mexico City, Mexico

TEACHING

Syracuse University, MPA Program

Fall 2026 Economics for Public Decisions

Spr 2025 Education Policy, Quantitative Analysis (Guest Lecturer)

Spr 2024, 2025 Quantitative Analysis

2023, 2024 Public Budgeting (Intensive Summer Courses)

Fall 2022 Public Budgeting

PRESENTATIONS

Scheduled Urban Economics Association (UEA); NYU Furman Center; Southern Economics Association (SEA)

2026 American Real Estate and Urban Economics Association (AREUEA); FLX Economics of Education Workshop; Capital District Applied Microeconomics Workshop; Association for Education Finance and Policy (AEFP)

2025	Association for Public Policy Analysis and Management (APPAM)
2024	Association for Public Policy Analysis and Management (APPAM); Association for Education Finance and Policy (AEFP); Public Finance and Budgeting Northeastern Workshop
2023	Association for Public Policy Analysis and Management (APPAM)

GRANTS & AWARDS

First Place, Graduate Student Poster-Session	2026
Center for Policy Research, Syracuse University	
Summer Dissertation Fellowship	
Syracuse University	
Ph.D. Department Research Grant	2025
Syracuse University	
Financial Inclusion Essay Award	2021
National Banking and Securities Commission, Mexico City, Mexico	

SERVICE

Graduate Student Representative, Center for Policy Research	2026 – 2027
Maxwell School, Syracuse University	
Referee: <i>Educational Researcher, Journal of Behavioral Public Administration</i>	

SKILLS

Software: Stata, R, QGIS, Python

Languages: English (fluent), Spanish (native)
